

COVID-19 Informed Consent

I understand that the novel Coronavirus (COVID-19) has been declared a global pandemic by the World Health Organization (WHO). I further understand that COVID-19 is extremely contagious and may be contracted from various sources. I understand COVID-19 has a long incubation period during which carriers of the virus may not show symptoms and still be contagious.

I understand that I am the decision maker for my health care. Part of this office's role is to provide me with information to assist me in making informed choices. This process is often referred to as "informed consent" and involves my understanding and agreement regarding recommended care, and the benefits and risks associated with the provision of health care during a pandemic. Given the current limitations of COVID-19 virus testing, I understand determining who is infected with COVID-19 is exceptionally difficult.

To proceed with receiving care, I confirm and understand the following:

- I understand my treatment may create circumstances, such as the discharge of respiratory droplets or person-to-person contact, in which COVID-19 can be transmitted.
- I understand that I am opting for an elective treatment that may not be urgent or medically necessary, and that I have the option to defer my treatment to a later date. However, while I understand the potential risks associated with receiving treatment during the COVID-19 pandemic, I agree to proceed with my desired treatment at this time.
- I understand due to the frequency of appointments with patients, the attributes of the virus, and the characteristics of procedures, I may have an elevated risk of contracting COVID-19 simply by being in a healthcare office.
- I confirm I am not experiencing any of the following symptoms of COVID-19 that are listed below:
 - *Fever
 - *Dry Cough
 - *Runny Nose
 - *Shortness of Breath
 - *Sore Throat
 - *Loss of Taste or Smell
- I understand travel increases my risk of contracting and transmitting the COVID-19 virus. I verify that I have NOT in the past 14 days I have not traveled:
 - (a) Outside of the United States to countries that have been affected by COVID-19
 - (b) Areas within the United States that have been affected by COVID-19
 - (c) Domestically within the United States by commercial airline, bus, or train.
- I am informed that you and your staff have implemented preventative measures intended to reduce the spread of COVID-19. However, given the nature of the virus, I understand there may be an inherent risk of becoming infected with COVID-19 by proceeding with this treatment. I hereby acknowledge and assume the risk of becoming infected with COVID-19 through this elective treatment and give my express permission to you and the staff at your offices to proceed with providing care.
